

Task Parameter

Computation time C_i is set to random value in $\{10..100\}$

Arrival/Release time a_i is set to 0 for all i

Absolute Deadline d_i is set to $s_i + C_i$

Relative Deadline $D_i = d_i - a_i = d_i$

Start time s_i

Finishing time f_i is set to d_i

Response time $R_i = f_i - a_i = f_i$

Lateness $L_i = f_i - d_i = 0$

Priority of task is defined by its number

Schedule: [0, 2, 1, 3, 4]
